1SC Guarding Ltd aspires through corporate social responsibility to satisfactorily servicing a triple bottom line of

People, Planet, Profit.

We will always endeavour to promote 'green' issues by recycling wherever possible and making use of products sourced via sustainable means.

We will never knowingly fail to comply with any local or national laws, standards, by-laws, orders or instructions that affect or are affected by anything done by us or in our name.

We will always ensure that by careful advertising the people who live in the areas in which we work are always aware of any relevant job opportunities.

Equally we shall, where possible, ensure that we support communities and community associations by whatever means possible.

We are 'considerate contractors' and will always work with the needs of not only local communities but also the wider community and national interests uppermost in our thoughts.

Whilst we do not support any specific charity, requests for donations will always be considered by the MD and at least one other main board director and will always receive a response.

Signed.....

David Jones, Managing Director.
